

Start

Задаем данные

```
array_in = ['1234', '1567', '-2', 'computer science'] # задаем массив
```

```
array_out = []
```

```
count = 0
```

for el in array_in

len(el) <= 3

Нет

Да

```
array_out.insert(count, el)  
count += 1
```

```
print(f'{array_in} -> {array_out}')
```

end
